

SULFUR
EXPORT 

Your Trusted Partner in
Global *Sulfur Supply*

www.SulfurExport.com

C O M

WHO WE ARE?

Sulfur Export is an international supplier and exporter of high-quality sulfur products. We manage the full export chain — from sourcing and quality control to logistics and global delivery.

Our goal is to connect reliable sulfur producers with international buyers through transparency, efficiency, and trust.

OUR VISION

*To become a leading global hub for reliable **SULFUR** trade.*

OUR MISSION

To connect trusted sulfur suppliers and buyers worldwide through transparency, technology, and efficiency.

CORE VALUES

*Reliability | Transparency
Quality | Global Reach*

OUR PRODUCTS

CORE SULFUR PRODUCTS

Granular Sulphur

High-purity form used in fertilizers, chemical production, and soil enrichment. Excellent flowability and consistent particle size make it ideal for blending and bulk application.

Lump Sulphur

Bulk-grade sulfur in solid blocks suitable for industrial processing and acid manufacturing. Characterized by high purity, thermal stability, and easy handling during transport and storage.

Sulphur Prills

Uniform, spherical prilled form designed for controlled melting and efficient handling. Used across fertilizer, petrochemical, and manufacturing industries.

Sulphur Flakes

Thin, shiny yellow flakes produced through molten sulfur solidification. Ideal for chemical feedstock, detergent manufacturing, rubber vulcanization and automotive components.

Powder Sulphur

Finely milled sulfur used for agricultural, pharmaceutical, and industrial applications. Perfect for fungicides, pesticides, and specialized chemical formulations.

QUALITY & PACKAGING

All products are manufactured to international standards and available in: Bulk shipments, Jumbo Bags, or 50 kg Bags — each load can be accompanied by SGS or Intertek certification upon request.

PAYMENT TERMS

At **Sulfur Export**, we operate exclusively through secure international banking instruments to ensure full protection and transparency for both buyer and seller.

PAYMENT

We do not accept advance payments or prepayments under any circumstances.

ACCEPTED PAYMENT METHODS:

- SBLC (Standby Letter of Credit) – issued by top-tier international banks, fully verifiable and compliant with UCP 600.

- Transferable DLC (Documentary Letter of Credit) – confirmed, irrevocable, and payable at the loading port after inspection and verification.

All payments are processed through trusted banking channels and conducted strictly in line with UCP 600 – Article 38, ensuring that the Letter of Credit is transferable and the transaction remains fully bank-protected.

Our priority is to provide a safe, transparent, and compliant payment structure, protecting our buyers while maintaining operational reliability across every shipment.

LOGISTICS & EXPORT NETWORK

FROM SOURCE TO DESTINATION

Sulfur Export operates through an integrated logistics network connecting production zones in the Middle East and Central Asia to major international ports. Our streamlined export routes ensure efficient, compliant, and traceable deliveries from the point of origin to the final destination.

KEY EXPORT HUBS

We handle all stages of transport — from inland collection to sea freight — *through trusted partners and verified carriers.*

Fujairah (UAE)

Sohar (Oman)

Aktau (Kazakhstan)

Mersin (Türkiye)

Rotterdam (*EU entry point*)

Poti (Georgia)

GLOBAL REACH

With our established logistics partners and port connections, we are fully capable of delivering CIF (*Cost, Insurance & Freight*) shipments to any destination worldwide ensuring timely arrival, full documentation, and cargo safety under international trade terms (Incoterms 2020).
